

Camp Sokol Troja

Camp Sokol Troja has been in operation since the 1960s. It is therefore a camp with a long history and one of the oldest car camps in Central and Eastern Europe.

The whole site is bordered by mature trees and is divided into sections by natural hedges and groups of shrubs and trees. Under the trees you will find the now much sought-after natural shade with benches to sit and rest.

Camp Sokol Troja is located in a quiet part of the residential area of Troja and is very close to the city centre. It is possible to walk to the centre, ride a bike or use the public transport. According to our information, this is the closest campsite and caravan park to the city centre. The whole camping area is fenced.

In the lower part of Troja (in the Prague-Troja district) there is the Troja Castle, the Prague Zoo and the Prague Botanical Garden. From Troja there is a ferry across the Vltava River to Císařský ostrov, from where you can also go to Stromovka. The upper part of Troja (Prague 8) extends into the southern part of the Bohnice housing estate. In the northern part of Troja there is also the natural monument Velká skála. On the top of the vineyard above the Troja Chateau stands the Baroque Chapel of St. Clare, the dominant feature of Troja, visible from afar. The campsite is well equipped for accommodation in tents, caravans and motorhomes.

Brand new showers and toilets were opened in 2019, including wheelchair access.

The caravan service includes electricity hook-ups, a place to drain used water from caravan tanks, a hook-up to refill water in caravans and a waste point for a chemical toilet.

We are pleased to announce a change in internet connection technology and a major increase in internet speed. The campsite now has a separate line with a speed of 100 Mbit/s. The entire campsite area is covered with Wi-Fi signal for internet connection, while the hostel Sokol Troja has been separated from the campsite operation and is also running on its own separate line with a speed of 100 Mbit/s.

Our immediate surroundings

The **Prague Zoo** is located about 600 m from our campsite. It is one of the most beautiful zoos in Europe. **Botanical Garden Prague** is located about 800 m from our campsite and is an unjustly neglected pearl of our cultural and social life. Besides thousands of species of plants from all continents, the Botanical Garden in Prague is one of the most important breeders of butterflies in the world. **Troja Chateau**: (600 m) The beautiful garden and fabulous interiors will captivate the layman and connoisseurs of nature and art. **Troja Canal**: (400 m) The artificially constructed wild water racing canal on the Vltava River is a regular venue for international races and a year-round training ground for wild water enthusiasts. **Cycle path**: A leisure cycling path runs between the campsite and the Vltava River. In the northern direction it is possible to take this trail along the river to Kralupy nad Vltavou. The southern part of the cycle path branches to the centre and to Prague 9. All these services are for camp guests without limitations and their use is included in the price of accommodation.

1. Camp Sokol Troja you are here
2. Public transport stop „Trojská“
(public transport + shared bikes Rekola/NextBike) on foot 5 min.
